

How to Find Remote and Virtual Work and Internships

There are many online resources you can utilize to find remote or virtual work and internships. [Start with this article in Handshake](#) for tips on navigating Handshake Jobs for virtual options.

You can also complete the LinkedIn Learning Pathway - [Become a Successful Remote Worker](#) - which will guide you through the process of searching and preparing for this type of work.

Here are some other ways (in addition to the many listed in the [Handshake article](#)) to search. If you're uncertain about the jargon you're seeing, check out the [Remote Work Dictionary](#). Many job search websites have added a remote filter which you may apply and save the search:

- [Daybook](#) (Public Service & Communications roles)
- [Indeed](#) Type "remote" in Location.
- [FlexJobs](#)
- [LinkedIn](#) (Have you toggled your profile to be seen by recruiters? Are you part of groups that are in your interest area?)

Finally, are you signed up for the GW virtual career newsletters? Career Exploration and Industry Career Coaches send out emails weekly (biweekly in the summer) and are being careful to add various remote or work from home opportunities. [Sign up here](#) for as many newsletters as you'd like.
